*The  
1956  
Caduceus*

*Yearbook  
of the  
University of Arkansas  
Medical Center*

*Little Rock, Arkansas*

# Foreword

The year 1956 probably will go down in history as an outstanding year for Medicine in Arkansas. Several milestones have been passed in this and the immediately preceding years.

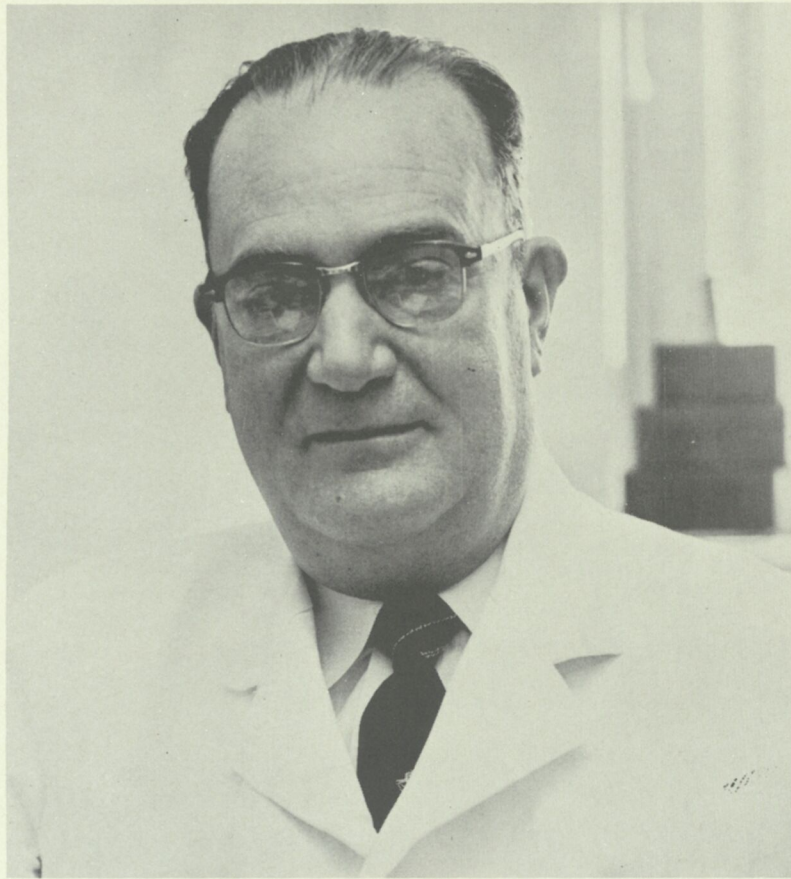

We hope that this, the CADUCEUS for 1956, will be of a quality befitting such a year of progress. In preparing the book, we have attempted to build one of which you can be proud. Several new features have been added this year. An annual beauty has been elected for the first time. Also, snapshots of each Senior have been included. We hope these additions meet with your approval. We, of course, realize that the book is not perfect. We must assume full responsibility for its imperfections, and seek your leniency with the hope that its better features will overshadow them.

We are grateful to many people for assistance in preparation of the annual. We wish especially to express our gratitude to Mr. Greer Lile for his excellent portraits; Dr. A. W. McCullough for his advice and interest; Mr. Jim Long for his assistance; Mr. Paul Chase for photographs of Department Heads, Annual Queen and others; and to Mr. Van Smith for his excellent candid photography included in the Senior Section and elsewhere in the book.

# *Dedication*

JEFF BANKS, M.D.

Because of his efforts over a number of years in behalf of our students; because of his readiness and availability, always, to talk over our individual problems; because the example of his personal life has always led medical students to be better physicians and better men and women, The Senior Class has elected Dr. Jeff Banks to share in the dedication of this, their last Caduceus.

# *Dedication*

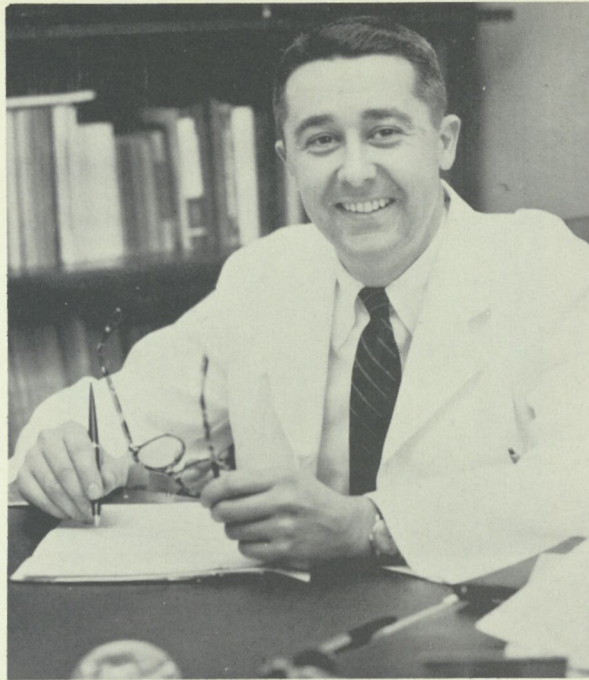

NORMAN J. JOHNSON, M.D.

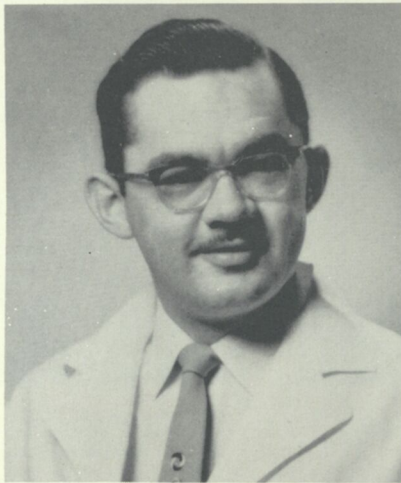

Because of his friendly understanding of his students and their difficulties; because of the high quality of his teaching; because his openminded enthusiasm has kept burning the fires of attainment in many of us when otherwise, they might have burned low, the Senior Class of 1956 has elected Dr. Norman Johnson to share the dedication of this, our last yearbook.

## *In Memoriam*

PAUL LEON EWING, Ph.D.

Born in New Jersey, educated in Milton College and the University of Illinois, Dr. Ewing came to us as Associate Professor of Physiology and Pharmacology in 1951. In his work here, Dr. Ewing came in contact with students of both the School of Medicine and the School of Pharmacy. All who knew him, held him in the same high regard. In his passing, we have lost a fine scholar, a true scientist, a splendid teacher, and a gentle, sincere friend. Our hearts go out to his family for we share with them, their bereavement.

Come on, Baby, let's rattle these old bones!

The editors had planned a page in the annual for the Rotating Interns, since they are a very important part of our education. However, only one had his portrait made. We thank you, Gene, for your cooperation.

In its fifth year of being, at the U. of A. the Student Association has made great strides. It has, through an annual meeting, brought closer association between the various schools of Pharmacy throughout the nation. Each year, representatives are sent from each state to a National Convention. Art Wright and Van Rosa will represent the U. of A. School of Pharmacy this year at the Convention at Detroit, Michigan. With a continuation of the progress accomplished in the past years, the Association will accomplish much in attaining and keeping high professional standards.

Which one has the "Toni"?

But Doc! This padding is unnecessary.

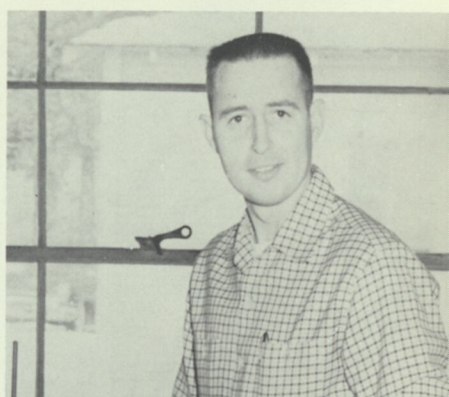

And that's the joke.

55% off! Must be the instrument

Good ole A.P.A. meetings where fine debates are found.

Me! Dry Lab!

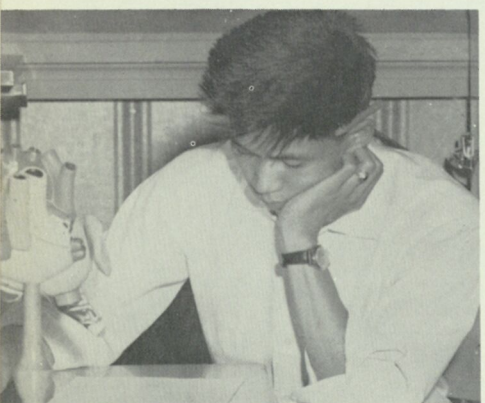

And here's what I think of the seniors!

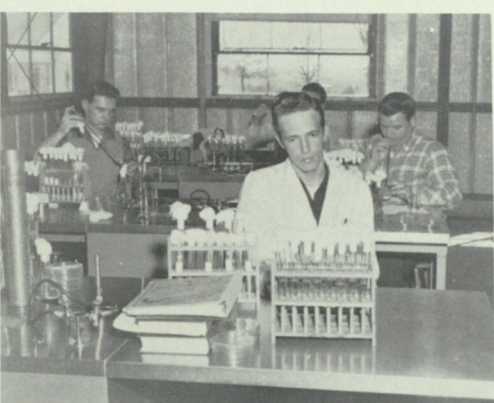

It'll be an easy test, probably not a point over 500.

Let's see, if I've got a lcc syringe graduated to .1 and the animal weighs 20 tons—

If ole Doc Jordin had one of these he wouldn't make me learn all of this.

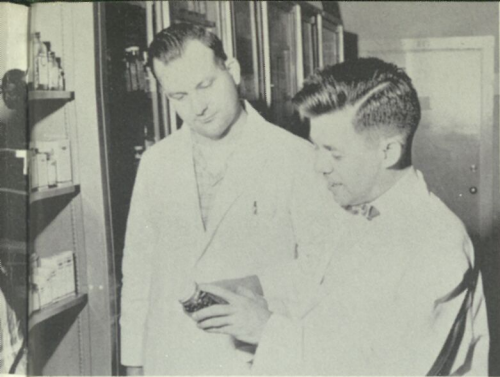

Wake up, Clyde, here comes the instructor.

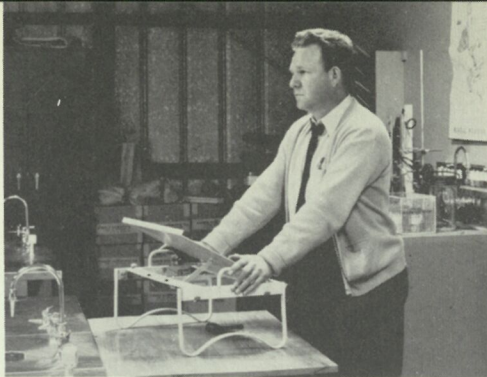

And this, the famous Dr. "Whit" Childers with his trained mice.

This is just the thing for your Arthritis and Rheumatism.

Is everyone listening?

Now if I juggle these two figures my % will be perfect.

Let us in there, Oliver, before these guys snowball us.

Careful or you'll tickle it.

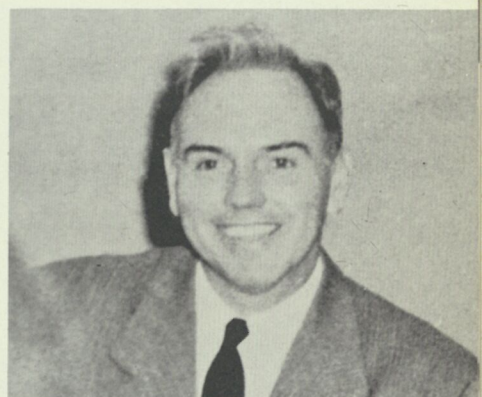

Boy Estes! Those nurses at the Hospital are good dates.

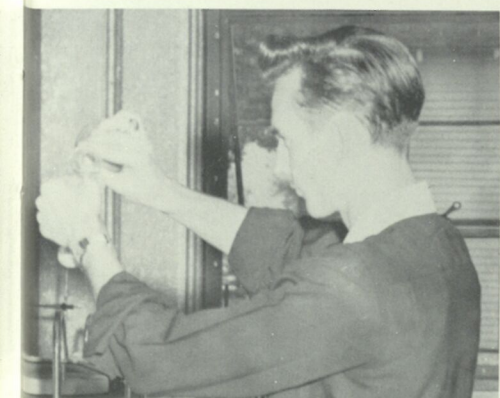

I see it Doc, and Wow! It's a female.

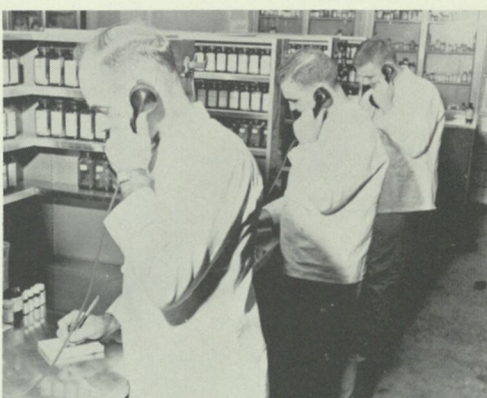

I can't even pronounce these names, much less spell them.

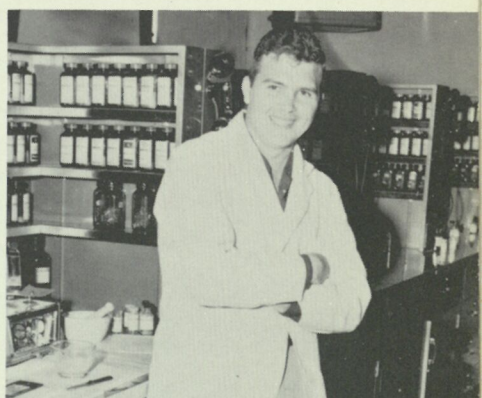

A great privilege to have a good speaker.

The book's wrong again, 'cause I ain't gettin' a black, curdy precipitate.

HELLO! Hello! hello!

Just wait 'till I get back to Forty Four, I'll cure everyone up there.

I'll never make it to the desk

Exactly 0.112457 cc. Yea! That's it.

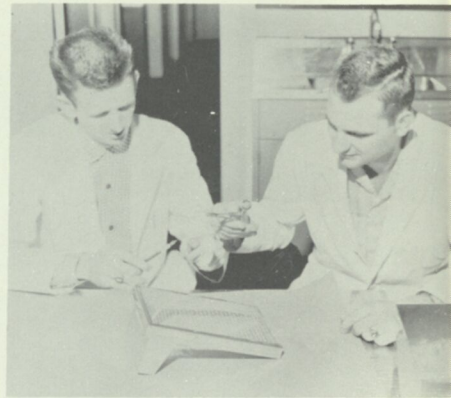

Careful—Whit, it's slick

Grrrrr, Grrrr.

Careful! Don't drop it 'cause it's worth \$\$\$\$\$\$, and that's Wholesale.

Go ahead, White, you've got a way with females.

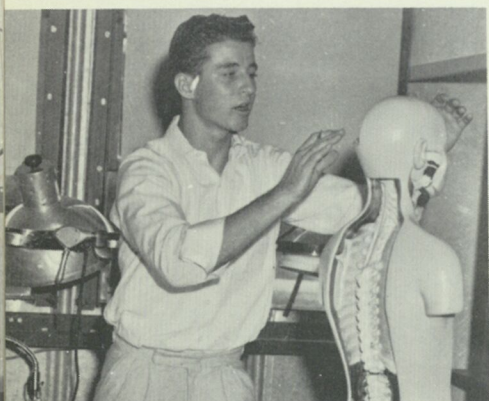

Wonder if I could do without this

Well, here we are

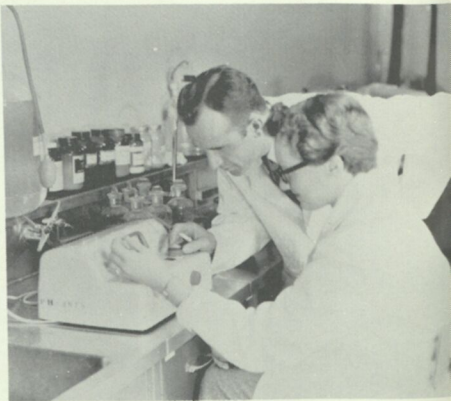

Supposed to be a snow man

The Gluteus Maximus,  
Yes, that's in the head.

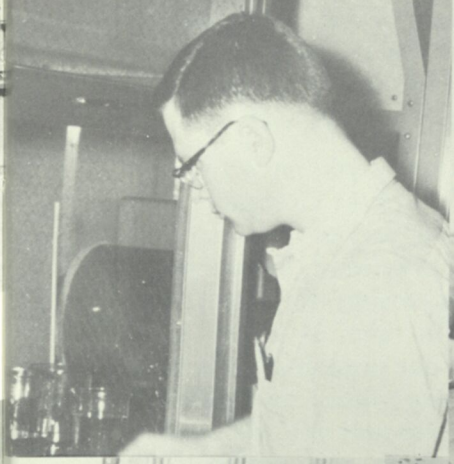

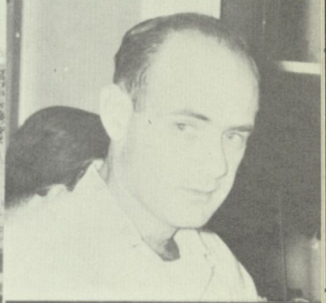

Open House

Hummm! This is a complicated instrument.
